# National Biopharma Mission supported online programme on Good Clinical Laboratory Practice (GCLP)

Dates: **09,16,23,30 November 2021**

Organized by: **CDSA, THSTI FARIDABAD**

## ABOUT THE PROGRAMME

Good Clinical Laboratory Practice (GCLP) is a set of standards that provide guidance on implementing Good Laboratory Practice (GLP) and Good Clinical Practice (GCP) principles to the analysis of samples from a clinical trial. By combining the GLP and GCP sets of guidelines, GCLP ensures the reliability, quality, consistency, and integrity of the clinical trial data generated by laboratories. Compliance with this standard provides assurance that the data generated and reported results are credible and accurate and that the rights, safety, well-being, and confidentiality of trial participants are protected.

## HIGHLIGHTS

- Workshop is organized by CDSA, THSTI, DBT which is a pioneer in building capacity and capability in clinical development and translational research in India.
- Programme shall offer comprehensive guidance on the principles and practice of GCLP and help the participants in understanding and thereby implementing GCLP in their laboratories.
- Reputed national and international domain experts. GCLP with exercises.
