BIRAC-DBT-GATES-PMU Positions

1. PD-01 - Program Director

Position Summary & Responsibilities

The Program Director (PD) will serve in the Program Management Unit chartered under the DBT, BIRAC, and Gates Foundation partnership for Grand Challenges and Mission Directed research in the areas of:

- Maternal, Neonatal and Child Health, Nutrition, Reproductive Health and more generally, Family Health.
- Infectious Diseases including expertise in the discovery and translational sciences related to vaccines, drugs and diagnostics
- Agriculture discovery and translational sciences in both crops and livestock
- Green Technology and sanitation

The PD will have the opportunity to interact and work with thought leaders and leading scientists both in India and internationally; contribute strategic thinking and forward-looking analysis in relevant areas; communicate progress and setbacks against strategic goals; and importantly create and manage grants/contracts as part of a team.

Responsibilities of the position include:

- To shape and execute scientific grants and research contracts leading to social innovations in the health and development of underserved populations in India and more generally in service of the developing world.
- To oversee the coordination and administration of all aspects of an ongoing program including planning, organizing, leading, and controlling program activities.
- Manage substantial portfolio of complex grants requiring high-level grant management skills, including applying and evaluating milestone-based performance objectives;
- Reporting to the MD BIRAC, the Program Director will manage specific investments, and will also be an important liaison to DBT and the Gates Foundation.
- In addition to scientific expertise, the Program Director must also bring in passion, humility, and critical thinking for the unique problems and the questions relevant to BIRAC's mission.

Dept. of Biotechnology

- To serve as a partner and resource to grantees and facilitate accomplishment of strategic objectives;
- To serve as a liaison between grantees with key stakeholders including members of Technical Advisory Groups, BIRAC, DBT and Gates Foundation staff as well as other potential funding partners.
- To represent BIRAC, and the DBT - Gates Foundation partnership to the external world related to Grand Challenges India initiatives;
- Undertake specific projects, as and when required.

Qualifications and Experience

Essential

- PhD, MD, MD/PhD / equivalent in biological sciences with broad and deep knowledge in health or agricultural sciences.
- 8-10 years of experience in academic, industry or similar position.

Desirable

- Experience in technology assessment and matching novel technologies with biomedical or public health applications preferred.
- Experience in project monitoring and evaluation, including development of conceptual frameworks, management of monitoring systems, implementation and - supervision of evaluations and reporting of evaluation findings.
- Experience in the execution, conduct and/or management of performance based grants, contracts or cooperative agreements.
- Experience working with the health community and with governmental and non-governmental organizations.
- Demonstrated outstanding written and oral communication skills in positions requiring communications in a broad and diverse audience on a range of complex technical issues.
- Strong planning and analytical skills. Excellent interpersonal and negotiation skills.

Dept. of Biotechnology

- Demonstrated capacity and Experience to handle collaboration within an organization and with external partners, as well as a ability to work with efficiency and diplomacy as part of a team effort.
- Ability to organize/prioritize work and meet deadlines within a fast paced environment with multiple and competing demands.
- Proactive and flexible nature with reliable follow-through and attention to detail.
- Ability to work both independently and in a cooperative and collegial fashion.
- Ability and willingness to travel domestically and internationally.
